TIME PERIODS FOR FILING A REPLY TO THIS NOTICE:

1. Applicant is given **no new time period** if the non-compliant amendment is an after-final amendment or an amendment filed after allowance. If applicant wishes to resubmit the non-compliant after-final amendment with corrections, the **entire corrected amendment** must be resubmitted within the time period set forth in the final Office action.
2. Applicant is given **one month**, or thirty (30) days, whichever is longer, from the mail date of this notice to supply the **corrected section** of the non-compliant amendment in compliance with 37 CFR 1.121, if the non-compliant amendment is one of the following: a preliminary amendment, a non-final amendment (including a submission for a request for continued examination (RCE) under 37 CFR 1.114), a supplemental amendment filed within a suspension period under 37 CFR 1.103(a) or (c), and an amendment filed in response to a *Quayle* action.

Attachment: Notice of NON-COMPLIANT AMENDMENT (37 CFR 1.121)

Only the corrected sections of the non-compliant amendment document must be resubmitted (in its entirety), in this case, the entire "Amendment to the specification" section of applicants' amendment document must be resubmitted. 37 CFR 1.121(h).

The "Amendment to the specification" section filed on Apr. 7, 2005, is not in compliance with 37 CFR 1.121 for the following reason:

Item C: Applicants request that particular numbered paragraphs be replaced with the paragraphs shown on pages 2-6 of that section. Applicants state that the numbered paragraphs correspond to the numbered paragraphs in US Patent Application Publication No. 2003/0036010 A1.

However, the paragraphs in the substitute specification filed on Nov. 2, 2003, are not numbered. The published US application is not part of the instant application. Because the paragraphs in the substitute specification are not numbered, applicants must identify the location of the paragraphs to be amended by page and line numbers in the substitute specification.

37 CFR 1.121(b)(1) states that "[a]mendments to the specification . . . which are considered for amendment purposes

Art Unit: 1756

to an amendment of a paragraph, must be made by submitting: (i) An instruction, which unambiguously identifies the location, to . . . replace a paragraph with one or more replacement paragraphs" (emphasis added).
